

Outreach Engagement to Community Partners (Template 3.1)

Directions: Complete this form by brainstorming potential community partners to assist the Implementation Team in its efforts to engage in organizational change to improve services for SGM patients. Team members can conduct Internet searches to obtain information about local organizations involved in advocating for or otherwise supporting SGM people and should talk to other people in the clinic and community for suggestions. Having this information available will help with action planning. Insert additional rows as needed.

Outreach Engagement to Community Partners (Organizations & Individuals)				
Community partner	Contact information	Relevant expertise	Possible role in organizational change	Ideas for engaging this community partner
